Have you ever seen
so many berries?

Mother nature is preparing for a hard winter

ARE YOU?

STIGA**SNOW BLOWERS****Snow Electric**

£149.17

These easy-to-handle, single stage snow throwers are driven forward by the auger, which collects and blows out the snow in one go. They are best for use on asphalt and other hard surfaces. They are easy to transport and store thanks to their compact shape and folding handle.

- 45cm working width
- 1800 watt motor
- rubber coated auger
- auger driven

**Snow Rex**

£407.50

These easy-to-handle, single stage snow throwers are driven forward by the auger, which collects and blows out the snow in one go. They are best for use on asphalt and other hard surfaces. They are easy to transport and store thanks to their compact shape and folding handle.

- 53cm working width
- 190cc B&S engine
- auger driven
- rubber coated auger

**Snow Cube**

£582.50

Adjustable in working height, these two stage throwers can be used on most types of surface. Note the adjustable discharge chute, which enables you to control where you relocate the snow. One hand grip and adjustable skid shoes (no bending required!) are also standard.

- 56cm working width
- 212cc engine
- manual transmission
- 5f / 2r gears
- toothed auger

**Snow Blizzard**

£1249.17

Adjustable in working height, these two stage throwers can be used on most types of surface. Note the adjustable discharge chute, which enables you to control where you relocate the snow. One hand grip and adjustable skid shoes (no bending required!) are also standard.

- 69cm working width
- 249cc B&S engine
- manual transmission
- 6f / 2r gears
- toothed auger

all prices exclude vat
prices are while current stocks last

SnowEx**Rock Salt Spreaders**

£500

SP85 SS

- stainless steel frame
- pneumatic tyres on lubricated axles, for smooth forward travel
- stainless steel adjustable flow gate
- spread deflector
- robust sealed gearbox for long service life
- for spreading of free-flowing materials to BS3247
- weather cover to protect spread material
- 76 litre capacity rugged polyethylene hopper
- up to 6m spread width

£550

SD95 Drop Spreader

- professional pedestrian spreader
- will spread wet or dry rock salt
- adjustable flow gate
- heavy duty polyethylene hopper on a rugged powder-coated steel frame
- rubber pneumatic tyres
- 76 litre hopper capacity
- 70cm spread width

STIGA**SNOW BLOWER****Snow Pro HST**

£2165.83

Adjustable in working height, the two stage throwers can be used on most types of surface. Note the adjustable discharge chute, which enables you to control where you relocate the snow. One hand grip and adjustable skid shoes (no bending required!) are also standard.

- 71cm working width
- 305cc B&S engine
- hydrostatic transmission (infinitely variable)
- saw toothed auger

Mini Pro SP-575 *

A firm favourite with contractors for its simple, reliable, and efficient performance. The patented SnowEx vibrator keeps material flowing freely, while a powerful drive auger feeds spread material directly to the spinner, ensuring jams and blockages are kept to a minimum.

The in-cab dual controller makes life easy for the user by allowing accurate control of spread width and spinner speed, which in turn helps to ensure spread material wastage is reduced.

- 163ltr capacity
- variable speed/spread width controller
- direct auger feed system
- vibrator fitted as standard

£1550

Pro SP-1575 *

Designed specifically for the UK and European markets, the SP-1575 is the benchmark for utility spreaders. Incredibly versatile, thanks to a choice of no less than 6 mounts and a powerful drive system that will feed out any salt product, the perfect choice for the contractor or facility manager looking for a small capacity spreader.

- 163ltr capacity
- dual variable speed/spread width controller
- vee-pro direct auger feed system and vibrator
- integral 3pt mounting hitch for compact tractors

£1950

Vee-Pro SP-3000 Bed Mount Spreader

A truly heavy-duty performer, yet it's light but extremely rugged polyethylene hopper means weight is minimised, and therefore more salt / grit can be carried than in a comparable steel spreader.

- 380ltr capacity
- full control of spread width and rate from vehicle cab
- quick connect spinner assembly to allow use when spreader not in service
- dual variable spread/speed controller for precise control of spinner and auger independently
- 12v vibrator unit to help material flow
- H/D ratchet strap and adjustable rail mount system

POA

V-Maxx SP-7550

For demanding spreading applications the SnowEx V-Maxx range is the choice of professionals, and the smallest spreader of the V-Maxx range is SP-7550. A large 1200 litre capacity poly hopper keeps weight to a minimum while enabling substantial loads to be transported.

- 1200 litre hopper
- full control of spread width and rate from comfort of vehicle cab
- for single cab drop sides and pick-ups, or mount on the VMT-250 trailer
- forward-biased weight distribution
- spreads 100% bulk salt to 100% bulk sand, thanks to unique hopper design
- quick-connect spinner assembly allows use of towbar hitch when spreader not in service
